

April 29, 2022

To the Board of Directors of the Mayne Island Community Centre Society:

I am writing to protest your handling of the pickleball controversy and egregious treatment of the Tennis Group. Your actions subvert an agreement between the Society and the Tennis Group, entered into in good faith, and maintained honourably to the benefit of both parties. It is a sad day in any small community when one group feels entitled to prey upon another group's created asset. As a former director, I am concerned to see such behaviour damage the credibility of the Centre. This situation is not right and not honourable, and plants seeds of discord and mistrust in the community. I hope you will reconsider your present course of action.

Sincerely

David Lindquist
